

Nomination The Green Key

Dear guest,

We would like to inform you regarding the policy the InterContinental Amstel Amsterdam executes in operating an environmental responsible business. Several measures are taken in order to reduce environmental impact and risks. Examples are the use of 100% green electricity, separation of waste, energy saving light bulbs, environmental responsible cleaning products, sustainable and biological products in our restaurants. In total more than 40 measures are taken in order to receive *The Green Key* award. This is an official Dutch reward certificate for doing responsible business in the hospitality branch. We are proud to be nominated and to receive this certificate as soon as we reach all requirements. If you might have any recommendations, please feel free to let us know by writing an e-mail to amstel@ihg.com. We hope that you support our policy in this matter. All together we can make the world a greener place.

With green regards,

Hendrik Bosch
General Manager
InterContinental Amstel Amsterdam
